

2011 Summer Camp

The 2011 Children's Workshop Summer Camp will enable children 16 months through kindergarten to build upon Montessori concepts in a fun, educational environment, while allowing them to have a break from the normal school year structure. Children will have the opportunity to exercise their creativity through theme related activities, projects, books, and songs. Morning yoga, afternoon soccer games, and plenty of running through the sprinkler and sliding down our waterslide, will provide children the physical activity they desire. Filled with a variety of field trips and in-school visitors, * this year's Summer Camp promises to be an excitingly educational and action-packed adventure!

**A note about field trips: For children in the primary program, there will be a non-refundable, \$15/week activity fee to help cover the cost of field trips and guests. Children in the toddler program will not go on field trips, but will participate as much as possible when guests visit.*

Completed Summer Camp Registration Forms and Deposits must be submitted to Kathy at the front desk no later than Friday, May 13.
